July 27, 1987

Mill Creek Distribution System
Attn: Robert Byrnes, Commissioner
P.O. Box 248
Moab, Utah 84532

Dear Bob:

The State Engineer sent a Certified Letter to Emma and Janie Walker on July 13, 1987, indicating that if the assessments owed to the State Engineer for their portion of the Mill Creek Distribution System was not paid, or some other arrangements made within five days of receipt of the letter, their water would be shut off. To date, we have not received notice from the postal service that the letter has been received.

Kent Jones asked that I have you deliver a copy of the State Engineer's letter to Janie and Emma. Would you then sign the enclosed affidavit, date it and return it to my office. The enclosed envelope is the letter to be delivered. Also enclosed is the affidavit that you need to sign, date and return to me. The letter should be delivered as soon as possible. Return the affidavit in the enclosed stamped envelope.

As always, your help is appreciated. If you have any questions, give me a call. A copy of the letter to Janie from the State Engineer is enclosed for your information.

Sincerely,

Mark P. Page
Area Engineer
